

“I’m fed up with Zoom calls”...

Well if you’d asked me 12 months ago what I’d end up doing as the Club Techie, it wouldn’t be setting up regular Zoom meetups, watching Paul Wilson cycle in his workshop or send our numerous changes in guidance on what we’re allowed to do! But it happened, and hopefully everyone has found the information useful, the zoom calls fun, and here’s hoping to an easier next 12 months for everyone.

Over the coming months, I’ll be working with the Runs secretary and leaders to see how we can improve the organisation over rides, and most likely get the runs list fully electronic and in the website calendar.

We also saw the forced demise of the Yahoo email list. Yahoo have been threatening this for a few years, but they finally closed the email groups functionality. Hopefully everyone is getting their information from either the Facebook Group or the Email Newsletters.

As ever, if anyone has ideas for content on either the website, Facebook group or the Email Newsletters, then please let me know.

James Nunnerley  
IT Officer
