

#### IT Officer

Thankfully the year has been a quieter one, not having to organise online events etc, but there still have been quite a few changes. The website has been updated, with more plans in the coming weeks to include the rides in a calendar format. I will continue, where possible, make everything as accessible to all – e.g. the streaming of the AGM.

There have been concerns about the number of WhatsApp groups that seem to be involving “the club” and where possible, we need to make rides etc as accessible to all members as possible.

The newsletters have been a little sporadic over the last year or so, and I'd welcome anyone who has ideas for content of these to let me know, as it would be good to make them more regular again.
